

bbRad how to: Send to an uncommon destination

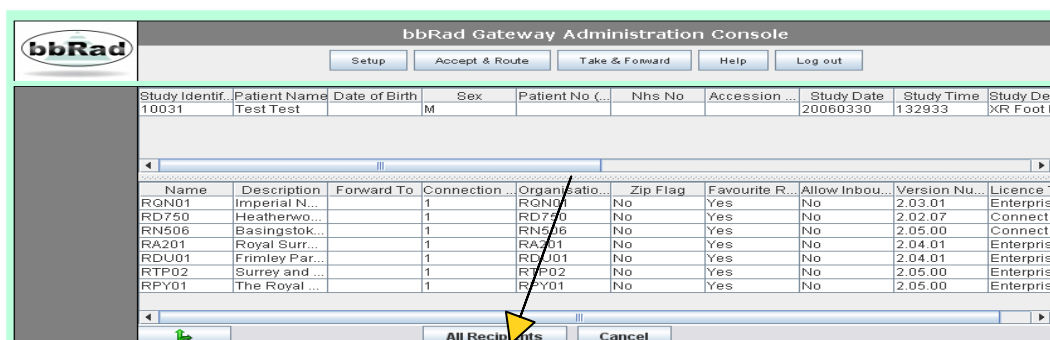

1. Send the desired study to your bbRad server (NACSBBRAD)
2. Log on to your bbRad administration console using your user name and password.
3. Select the 'Accept & Route' button

4. Click on the desired study to highlight it. Then select the open book icon in the top right hand corner.

5. This will now bring up a list of your favourite sites. Select 'All Recipients' at the bottom of the console to access the entire bbRad network.

6. Click on the destination you wish to send the study to, then select the double headed green arrow in the bottom left hand corner.

Favourites Cancel

Secondly, select the double headed green arrow to route the study to your chosen destination

7. This message box will then come up. Select Yes to route the study.

Really Route?

One or more of the selected studies are missing key information.
Procedure Code and either NHS Number or Patient Number (Recipient) should be set.
This could prevent automatic processing at the Recipient's gateway.
Are you sure that you want to Route these studies?

Yes No

Java Applet Window

8. The study will then be routed to the destination and you will be returned to the 'Accept & Route' page.
